

Subject: Application for Manager - Matthew Bryan Wirman

Dear Hiring Manager,

I am writing to express my strong interest in the Manager position. With over 20 years of experience in high-stakes operations, logistics, and personnel management, I offer a unique combination of frontline safety expertise and high-level administrative oversight. My background in the U.S. Army and at UC Health has prepared me to lead large teams, manage multi-million dollar assets, and ensure the highest standards of passenger safety and operational efficiency.

Throughout my career, I have demonstrated an ability to manage complex logistics and workforce demands:

- **Workforce Management:** At Aegis Protective Services, I managed 24/7 schedules for over 100 personnel, ensuring total staffing compliance and operational readiness.
- **Asset & Fleet Oversight:** During my service in the U.S. Army, I coordinated transportation, supply chain, and maintenance operations for equipment valued at over \$20M.
- **Safety & Regulatory Compliance:** I have a proven track record of enforcing federal and state safety standards, conducting risk assessments, and implementing mitigation strategies in fast-paced environments.

Incident Leadership: My experience as a Public Safety Officer III involves managing complex incidents, medical emergencies, and leading field operations during critical responses.

As a veteran with a deep commitment to public service and safety, I am adept at navigating the regulatory requirements and "safety-first" culture essential to transit operations. I am a trained Field Training Officer (FTO) and have served as a Union Steward, giving me a well-rounded perspective on both management objectives and employee relations.

I am eager to bring my disciplined approach to logistics and my passion for public safety to your transit team. Thank you for your time and consideration.

Sincerely,

Matthew Bryan Wirman
